

Keynote Presentation: Arno A. Evers, May 16, 2022, Online Event

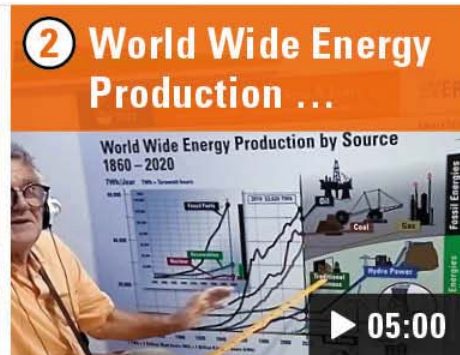

Will Hydrogen be able, to solve the Energy Problems of the World?

Welcome to my Keynote Presentation. Just keep looking to the end, there is still a lot to come ...

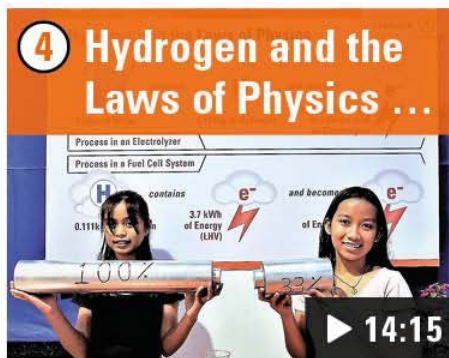

The Energy emitted by the Sun on one Day would supply the Energy needs of the whole World for almost 30 Years! ...

Compare the speed of the introduction of Fossil Fuels with that of Renewable Energies ...

The Power Grid reaches 4.8 times from the Earth to the Moon. Or 45.8 times around the Equator of the Earth ...

The overall efficiency when converting Water to Hydrogen and vice versa is around 33% ...

One of Arno's Energy Ideas Vol. 1 Revolution in the Garage from the year 2003 ...

One of Arno's Energy Ideas Vol. 2 Can 35 Cars power one Skyscraper? From the year 2005 ...

One of Arno's Energy Ideas Vol. 3 The Use of a Personal Power Provider 3P+ from the year 2003 ...

Keep in touch, I am looking forward to your Remarks and Questions: arno@aaevers.com
