

> Scheme of a Solar Thermal Power Plant (STPP)

Similar processes at:

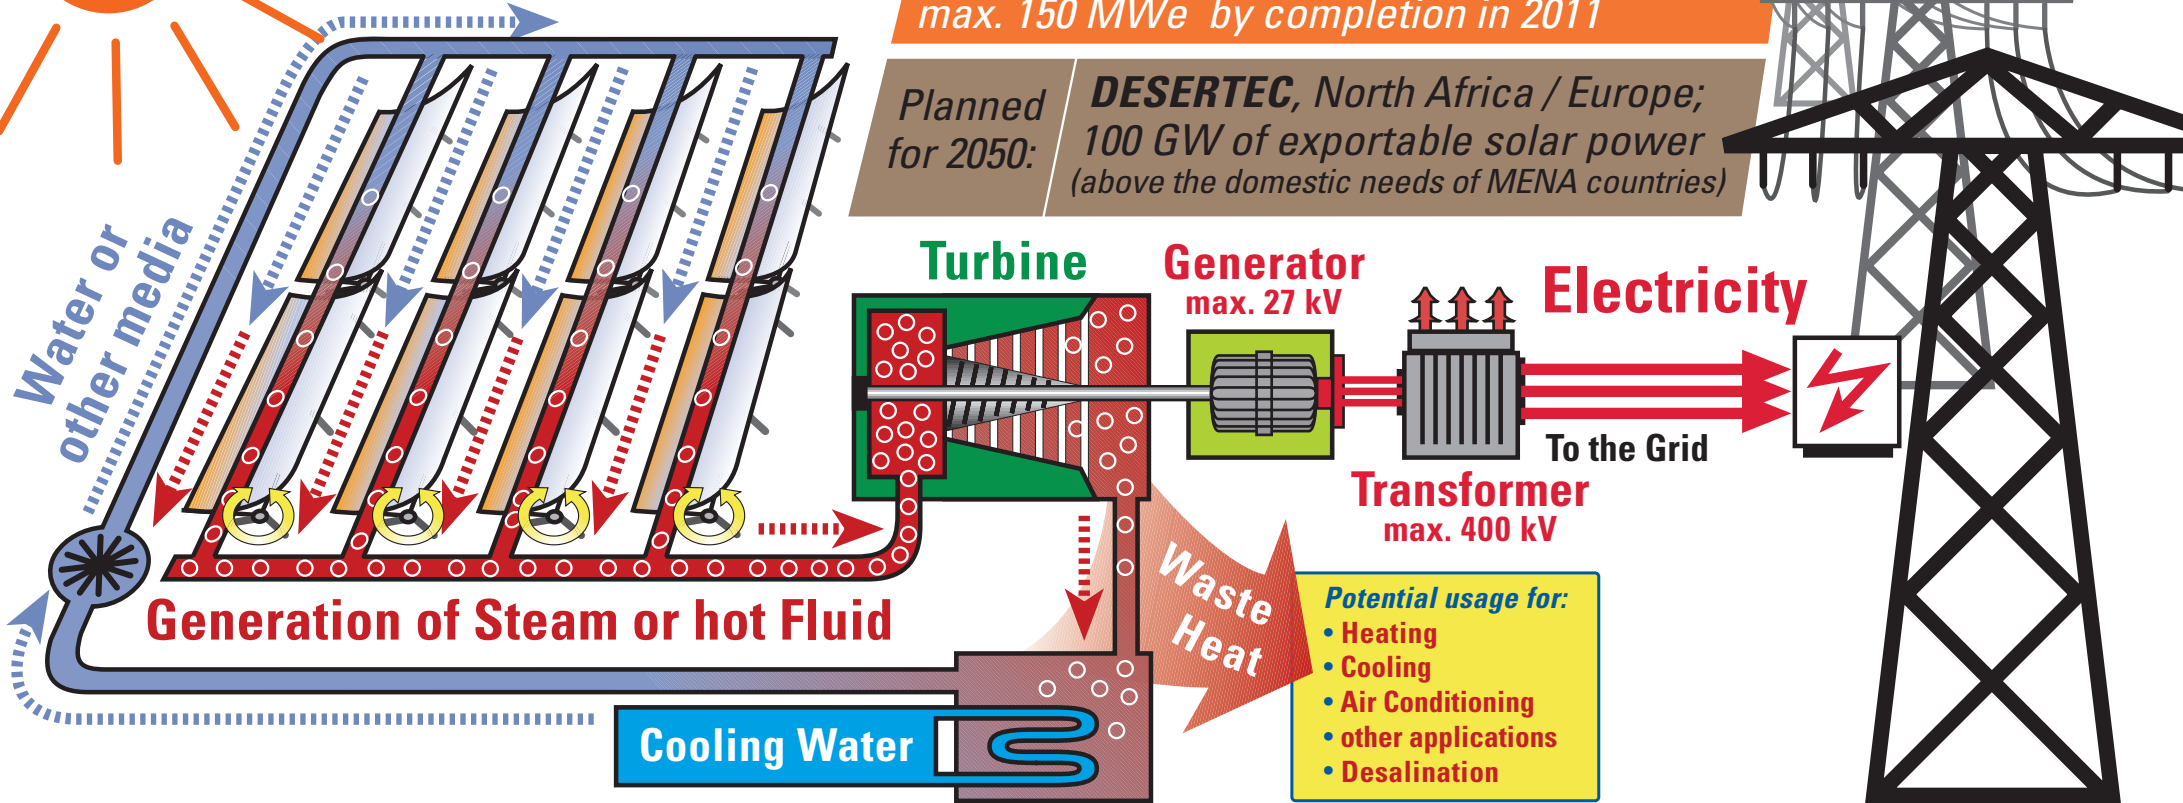

Mojave Desert, CA, USA:
several solar power plants (354 MWe) since 1982;
upscaled to 553 MWe in 2011

Solar Collector Field

Andasol I – III, Granada, Spain, since 2008;
max. 150 MWe by completion in 2011

Planned for 2050:

DESERTEC, North Africa / Europe;
100 GW of exportable solar power
(above the domestic needs of MENA countries)
