Announcement for HANNOVER FAIR '04

March 2004

Hydrogen and Fuel Cells

Technology of the Future

Arno A. Evers FAIR-PR, Germany, owner and operator of the Group Exhibit – Hydrogen + Fuel Cells at the HANNOVER FAIR '04, April 19-24 presents 114 international exhibitors and forum participants from 24 countries showing new products, technologies and developments from the Hydrogen and Fuel Cells industry. The exhibitors include a wide spectrum of companies from research institutions to start-ups to giant multinationals. The Group Exhibit, now in his tenth year, has developed to be the world's largest international platform for the emerging H2/FC industry. For further information please visit www.fair-pr.com
